How to Uninstall App on a Site Forge?

Uninstalling an app will delete all of its data and content from your device. If you think you may want to use the app again in the future, you may want to consider disabling it instead of fully uninstalling it. Disabling an app will prevent it from running, but it will still be installed on your device and its data will be preserved.

Follow the steps below to Uninstall the App on a Site.

Navigate to the Home Page of Forge

(Use this link to view How to Navigate).

Uninstall App on a Site:

(Use this link to view Uninstall App on a Site).
