

# How to delete Server SSH key through the mobile app?

It is important to make sure that you delete the correct key, as deleting the wrong key could potentially cause problems with your SSH connections. It is also a good idea to make a backup of your keys before deleting them, in case you need to restore them for any reason

## Prerequisites :

You must have an Active Server. You can jump to the tutorial section if the above conditions are proper, Or first follow the links below to set up the prerequisites.

## How to install a Server

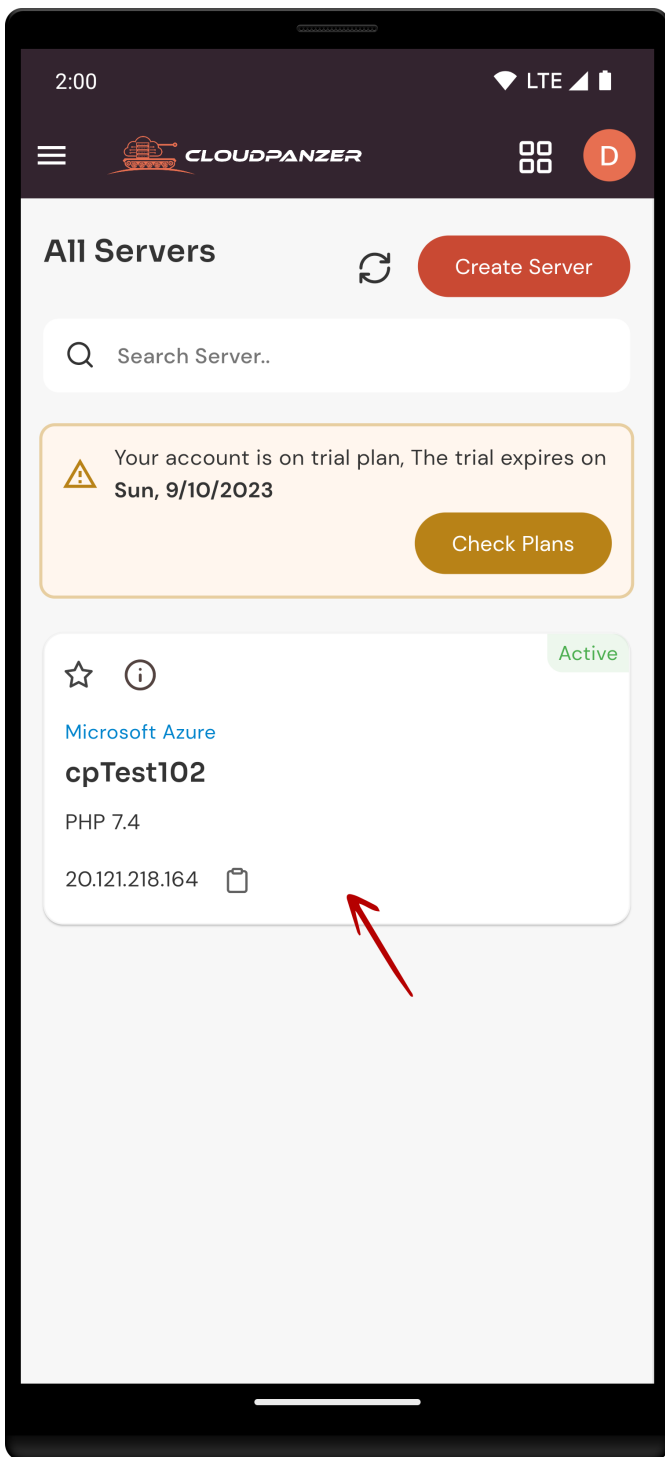

## Tutorial :
