

# How to show Daemon logs through the cloudpanzer mobile application?

Daemons are background processes that run on a computer, often to perform system-level tasks. These processes can sometimes generate logs that contain important information about their activity and any issues that may arise.

## Prerequisites :

You must have an Active Server and Active site. You can jump to the tutorial section if the above conditions are proper, Or first follow the links below to set up the prerequisites.

## How to install a Server

### Tutorial :

**You can watch the Video or Continue reading the post.**
