

# How to stop a Daemons through the cloudpanzer mobile application?

Stopping a daemon, or background service can be an important task for managing your system. Identify the name of the daemon you want to stop. This can usually be found in the documentation or by using the `ps` command to list all running processes.

## Prerequisites :

You must have an Active Server and Active site. You can jump to the tutorial section if the above conditions are proper, Or first follow the links below to set up the prerequisites.

## How to install a Server

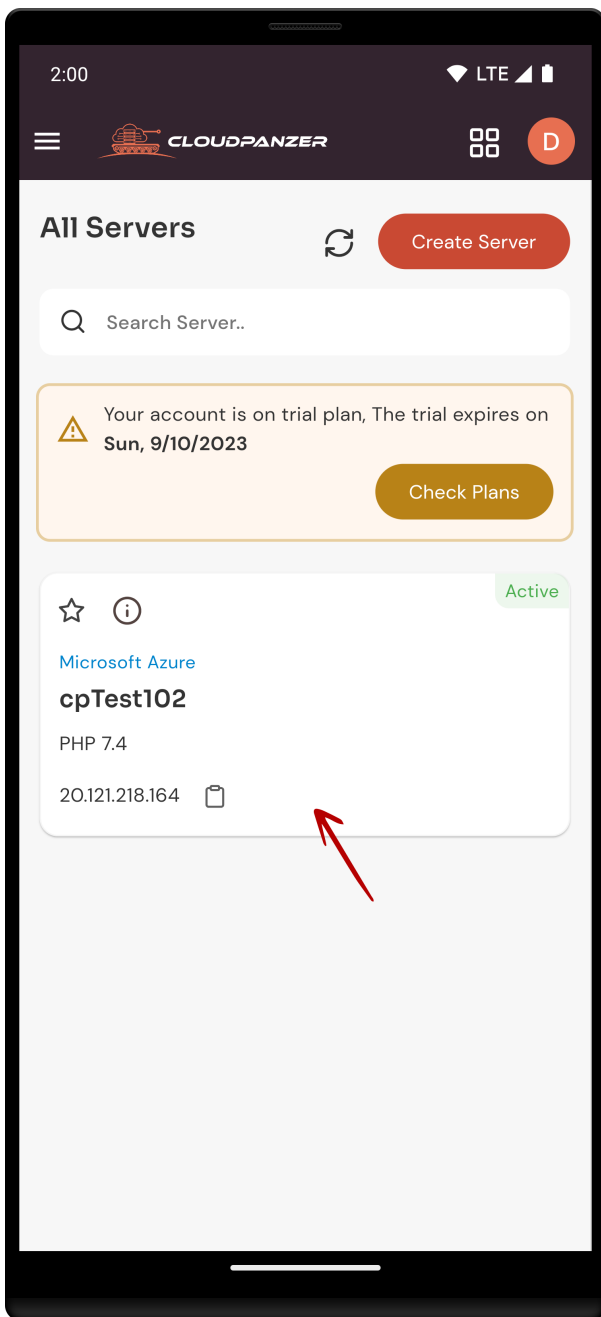

## Tutorial :

Follow the steps below to Stop Daemon.

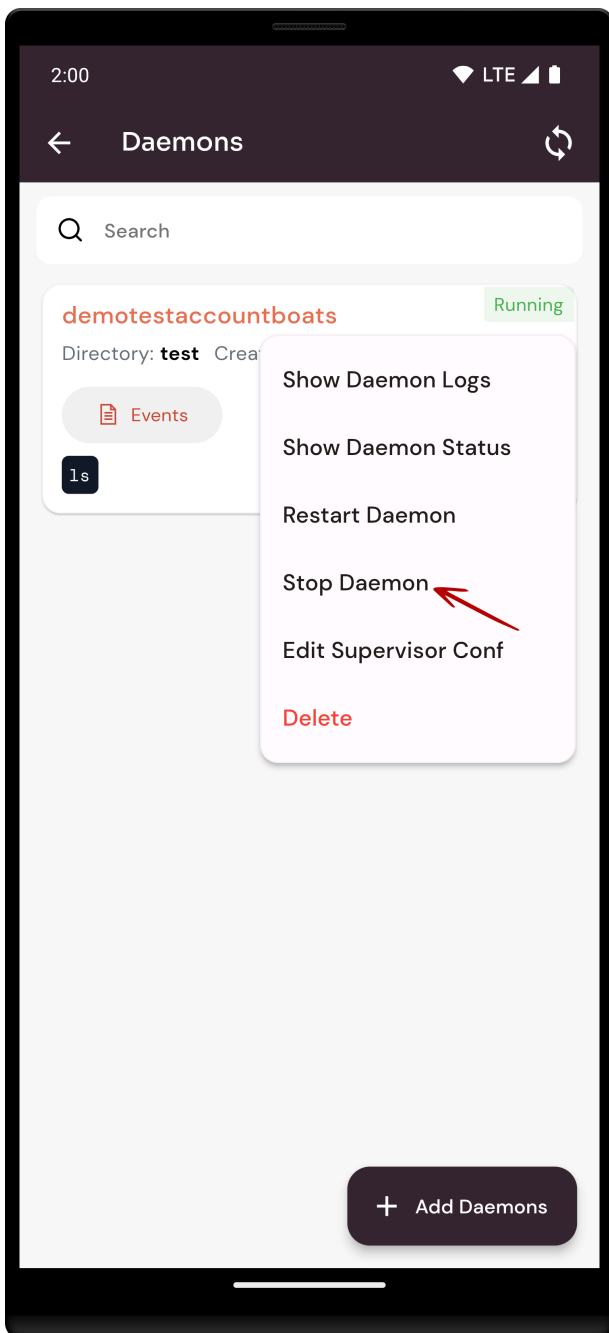

1: Once logged in, look for a "Server" and click on it.

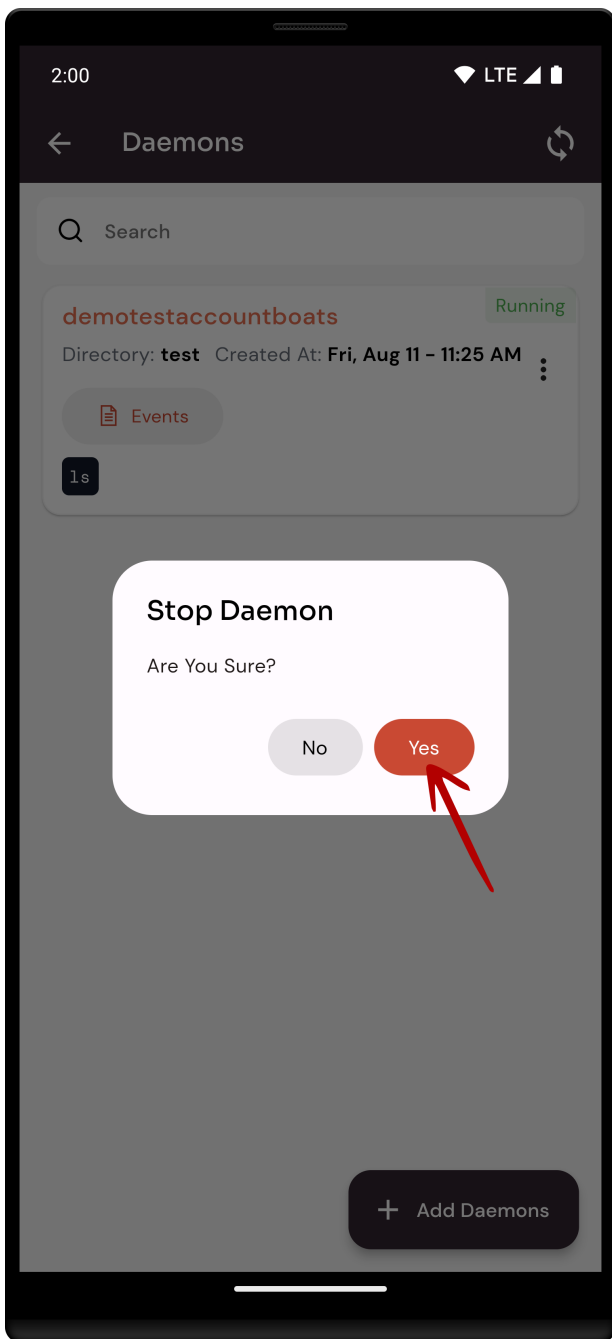

2. Click on the Daemons Option.

3. Click on the menu icon and Select the Stop Daemon Option.

5. Click on the yes button to stop Daemons.

Here, you can see the daemon stop successfully.
