How to view Server SSH Key through the mobile app?

SSH, which stands for Secure Shell, is a cryptographic network protocol used for secure remote communication and data transfer over a potentially unsecured network. It's commonly used for logging into remote servers, executing commands, and managing files securely.

Prerequisites :

You must have an Active Server. You can jump to the tutorial section if the above conditions are proper, Or first follow the links below to set up the prerequisites.
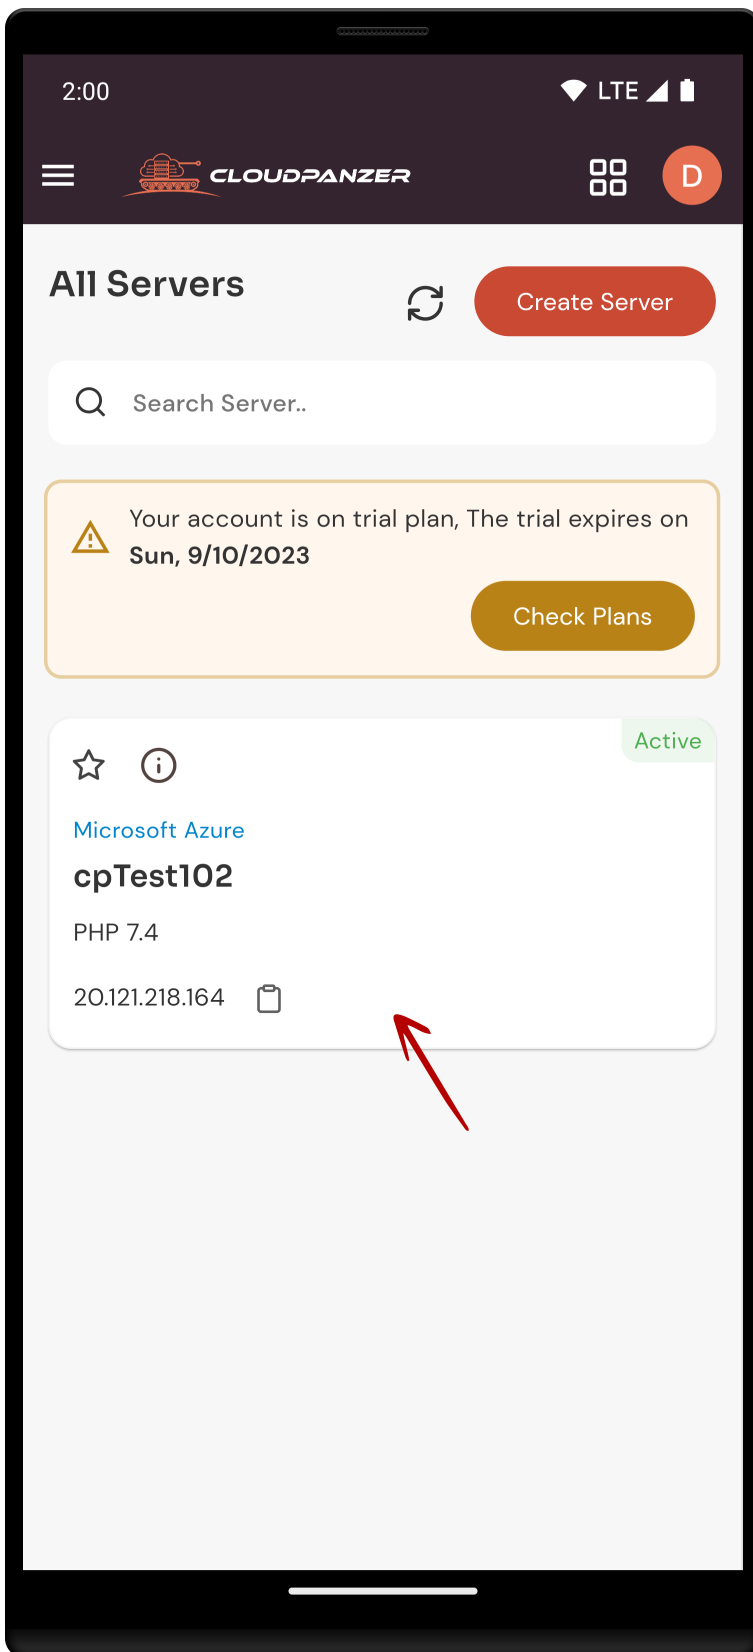

## How to install a Server

Tutorial :

You can watch the Video or Continue reading the post.
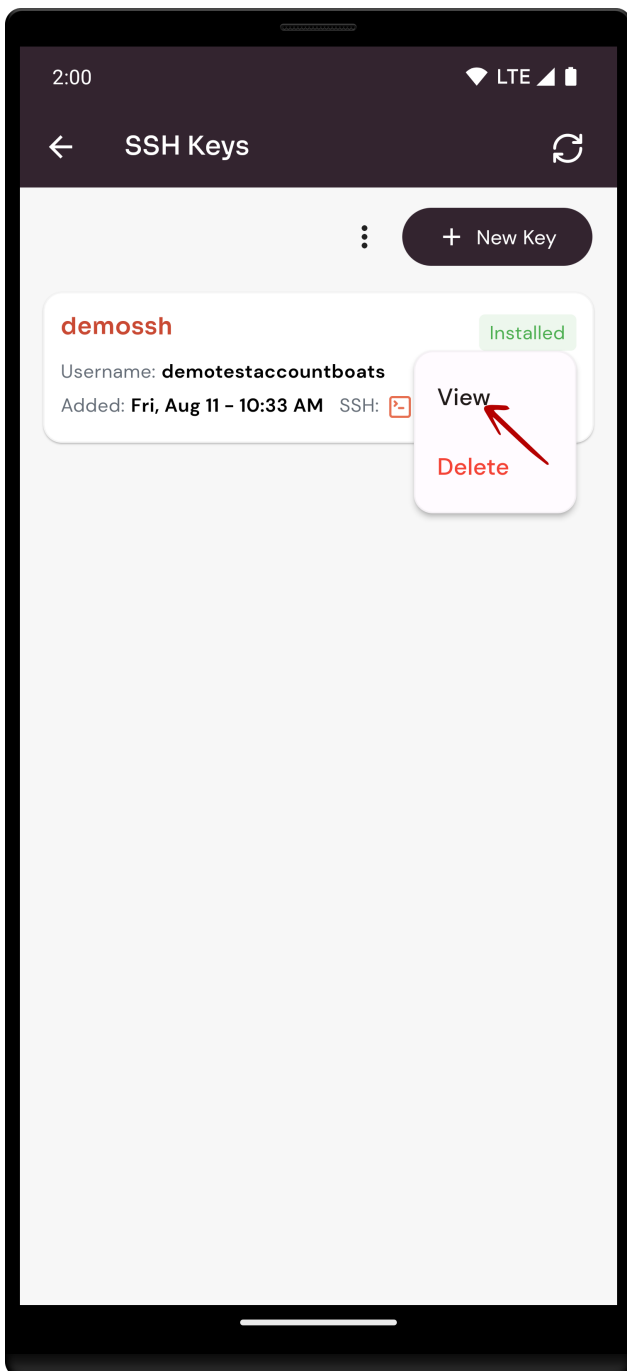

Follow the steps below to View SSH Key.

1: Once logged in, look for a "Server" and click on it.

2: Click on the SSH Key option.

3. Click on the menu icon and View Button.

Here, you can see SSH Key Successful.
