4. Click on the Install Button.

The screenshot shows the CloudPanzer interface for a site named **demo2.testaccount.boats**. The left sidebar contains a 'Site Tools' menu with options like App, Environment, SSL, Redirects, Events, Logs, Apache Configuration, PHP Configuration, **Node.js Configuration** (highlighted), Shell Settings, and Password Management. The main content area shows site details (IP: 20.121.218.164, PHP: 8.2, Server Mode: Apache) and a section for 'Node Version Manager (nvm)'. Under 'Node.js Versions', version **v12.22.12 (Latest LTS: Erbium)** is selected in a dropdown, and a red arrow points to the **Install** button. Below this is a table titled 'Site Node.js' which currently shows 'No data available'.

Here, you can install Node.js successfully.

This screenshot shows the same CloudPanzer interface after the Node.js installation is complete. In the 'Node.js Versions' section, the 'Install' button is still present. The 'Site Node.js' table now contains one entry for **v12.22.12 (Latest LTS: Erbium)**. A red arrow points to the **Installed** status in the 'Status' column. The 'Yarn' column shows 'Pending', and the 'Actions' column has a button labeled 'Actions'. The table footer indicates 'Rows per page: 10' and '1-1 of 1'.
