How to Add Server Notes through the cloudpanzer website?

Tutorial :

You can watch the Video or Continue reading the post.

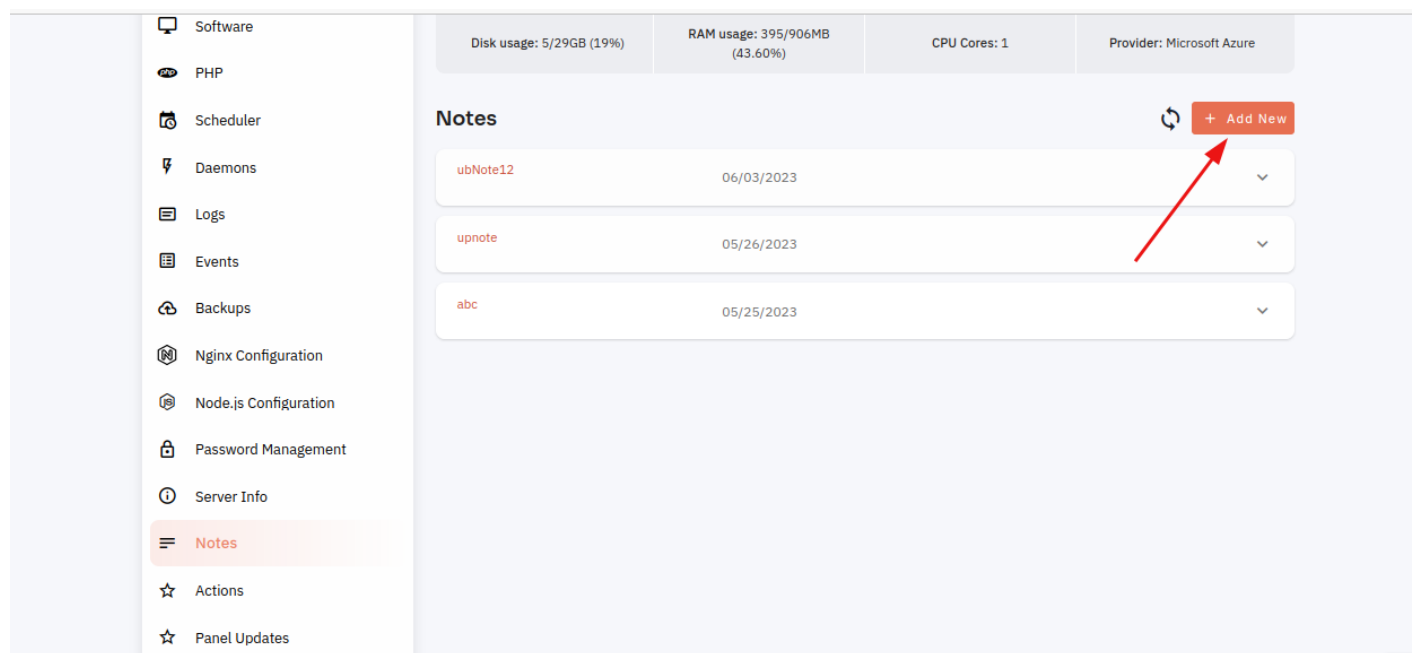

<https://www.youtube.com/embed/nrRhxDINeg>

Follow the steps below to Add Notes.

Navigate to the Add Note

(Use this link to view How to Navigate).

3: Click on the Add Note Button.

4: Fill in all fields and Click on the save Button.

The screenshot shows a modal window titled "Add Note" overlaid on a dashboard. The dashboard has a sidebar with various system management options like Software, PHP, Scheduler, Daemons, Logs, Events, Backups, and configurations for Nginx, Node.js, and Passwords. At the top of the dashboard, there are status bars for Disk usage (5/29GB), RAM usage (395/906MB), CPU Cores (1), and Provider (Microsoft Azure). The "Add Note" form contains the following fields: "Title *" with the value "testNote"; "Username" with "abcUser"; "Password" with "qwerty"; "Link" with "acs.com"; and a "Description" text area with "Its simple note of ubpanel". A red arrow points from the description field to the "Save" button at the bottom right of the modal. The modal also has a "Close" button next to the "Save" button.

5. Here, you can see the Note created Successfully.

The screenshot shows the "Notes" section of the dashboard. The sidebar is the same as in the previous image. The "Notes" section has a title "Notes" and a "+ Add New" button. Below the title is a list of four notes, each in a white card with a red title, a date, and a dropdown arrow. The notes are: "ubNote12" dated "06/03/2023", "upnote" dated "05/26/2023", "abc" dated "05/25/2023", and "testNote" dated "06/05/2023". A red arrow points to the "testNote" entry, indicating it was just created. The dashboard status bars at the top are also visible.
