

How to Add Server Notes through the cloudpanzer website?

Tutorial :

You can watch the Video or Continue reading the post.

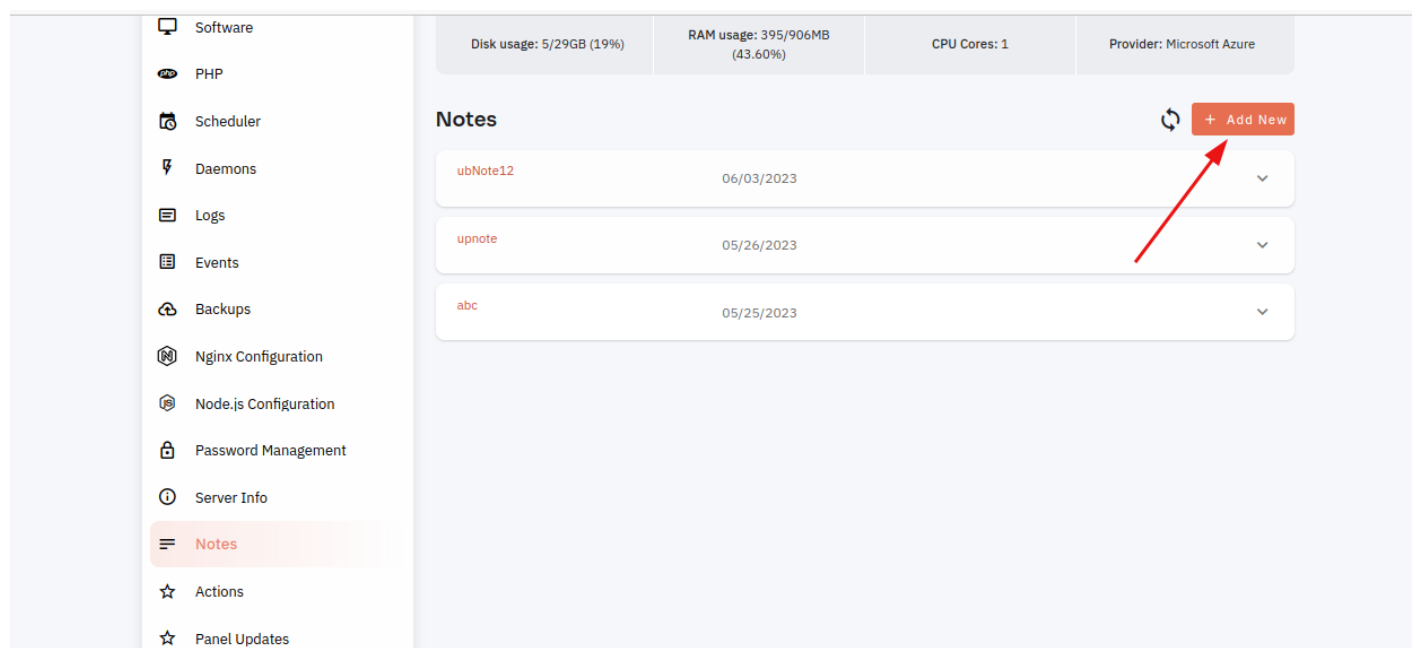

<https://www.youtube.com/embed/nrRhxDINeg>

Follow the steps below to Add Notes.

Navigate to the Add Note

(Use this link to view How to Navigate).

3: Click on the Add Note Button.

4: Fill in all fields and Click on the save Button.

The screenshot shows a modal window titled "Add Note" overlaid on a dashboard. The dashboard has a sidebar with various system management options and a top section displaying server statistics. The modal form contains the following fields:

- Title ***: A text input field containing "testNote".
- Username**: A text input field containing "abcUser".
- Password**: A text input field containing "qwerty".
- Link**: A text input field containing "acs.com".
- Description**: A large text area containing "Its simple note of ubpanel".

At the bottom right of the modal, there are two buttons: "Close" and "Save". A red arrow points from the "Save" button back to the "Description" text area.

5. Here, you can see the Note created Successfully.

The screenshot shows the "Notes" section of the dashboard. The sidebar on the left is the same as in the previous image. The main content area displays a list of notes under the heading "Notes". At the top right of this section is a "+ Add New" button. The list contains four notes, each with a title, a date, and a dropdown arrow:

Note Title	Date
ubNote12	06/03/2023
upnote	05/26/2023
abc	05/25/2023
testNote	06/05/2023

A red arrow points to the "testNote" entry, which is the most recent note added.
