

How to create Daemons on a server through the CloudPanzer website?

A daemon is a type of background process that runs on a computer and performs tasks without user intervention. Daemons are often used to perform system-level tasks, such as scheduling jobs, managing network connections, or monitoring system resources.

Prerequisites :

You must have an Active Server. You can jump to the tutorial section if the above conditions are proper, Or first follow the links below to set up the prerequisites.

How to install a Server

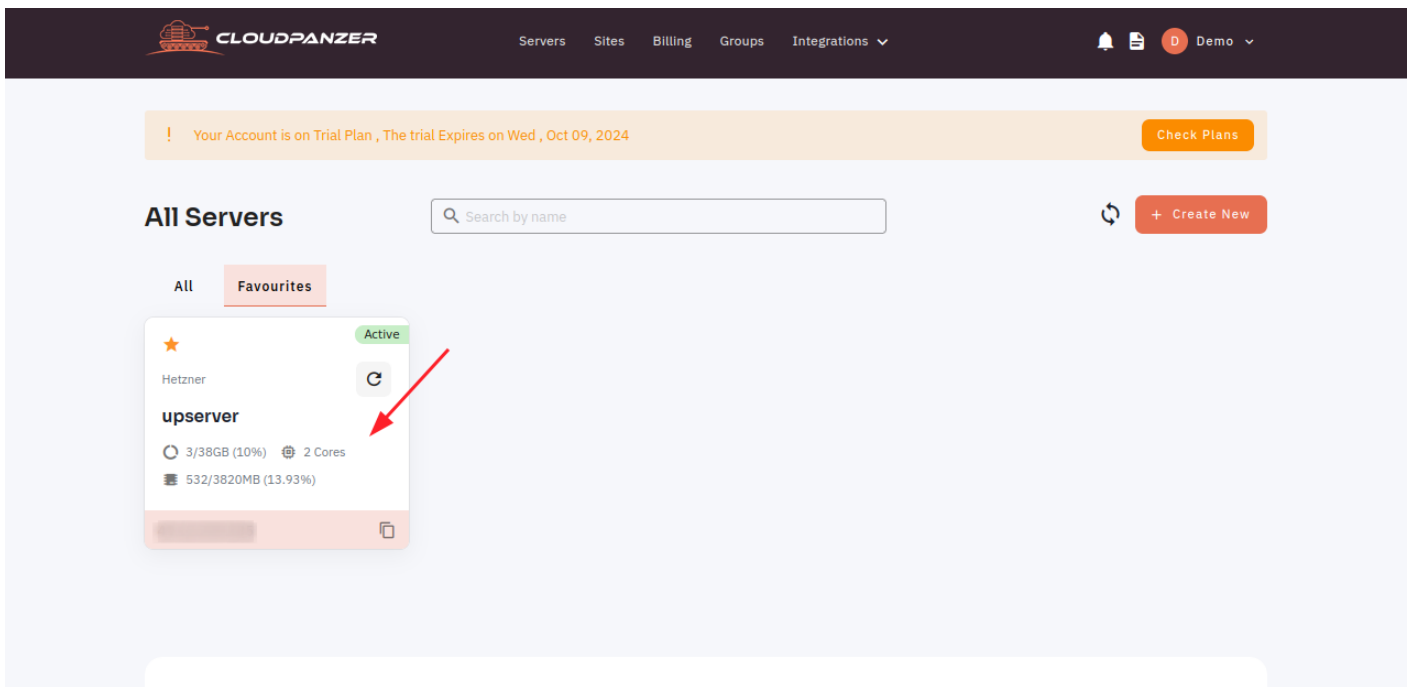

Tutorial :

You can watch the Video or Continue reading the post.

<https://www.youtube.com/embed/Mg5w2EBm5-w>

Follow the steps below to create a Daemon.

1. Once you are logged in, look for a "Server" and click on it.

2. Click on the daemons option.

3. Click on the add new button.

4. Enter the required data and click on the save changes button.

Here, you can see the Daemon was created successfully.

The screenshot displays the Cloudpanzer upserver management interface. On the left is a sidebar with navigation links: Sites, Database, PHP, Scheduler/Cron, Logs, Logrotates, Events, Backups, Nginx Configuration, Node.js Configuration, Password Management, Server Info, Panel Updates, and Server Updates. The main content area is titled 'upserver' and includes a 'Refresh Stats' button and tabs for Nginx, Redis, and Composer. A green 'Active' status badge is in the top right. Server statistics are shown: Disk usage (3/38GB, 10%), RAM usage (532/3820MB, 13.93%), CPU Cores (2), and Provider (Hetzner). The uptime is 'Mon 9 Sep - 2 Days, 20 Hours, 58 Minutes 49 second'. Below this is a 'Daemons' section with a search bar and a '+ Add New' button. Two daemons are listed: 'ls' and 'sudo'. The 'ls' daemon is highlighted with a red arrow. Each daemon entry shows the user (newsitetestaccountboats for ls, appletetestaccountboats for sudo), the command (ssh newsitetestaccountboats@49.12.229.235 and ssh appletetestaccountboats@49.12.229.235), and the number of processes (1). Each entry also has a 'Running' status and a 'View' button. A red gear icon is located in the bottom right corner.
