Follow the steps below to Delete the User SSH Key

1. Click on the user profile.

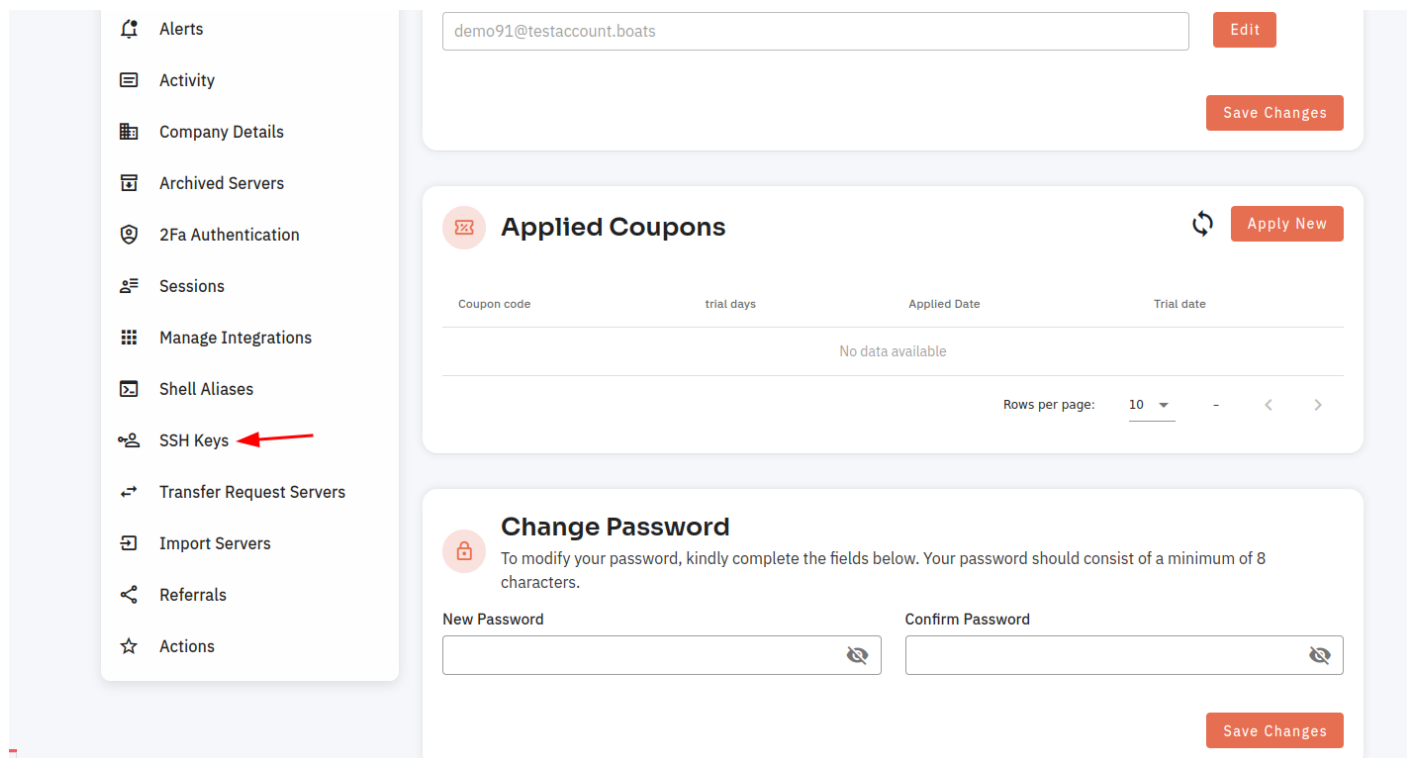

2. Click on the Account Settings option.

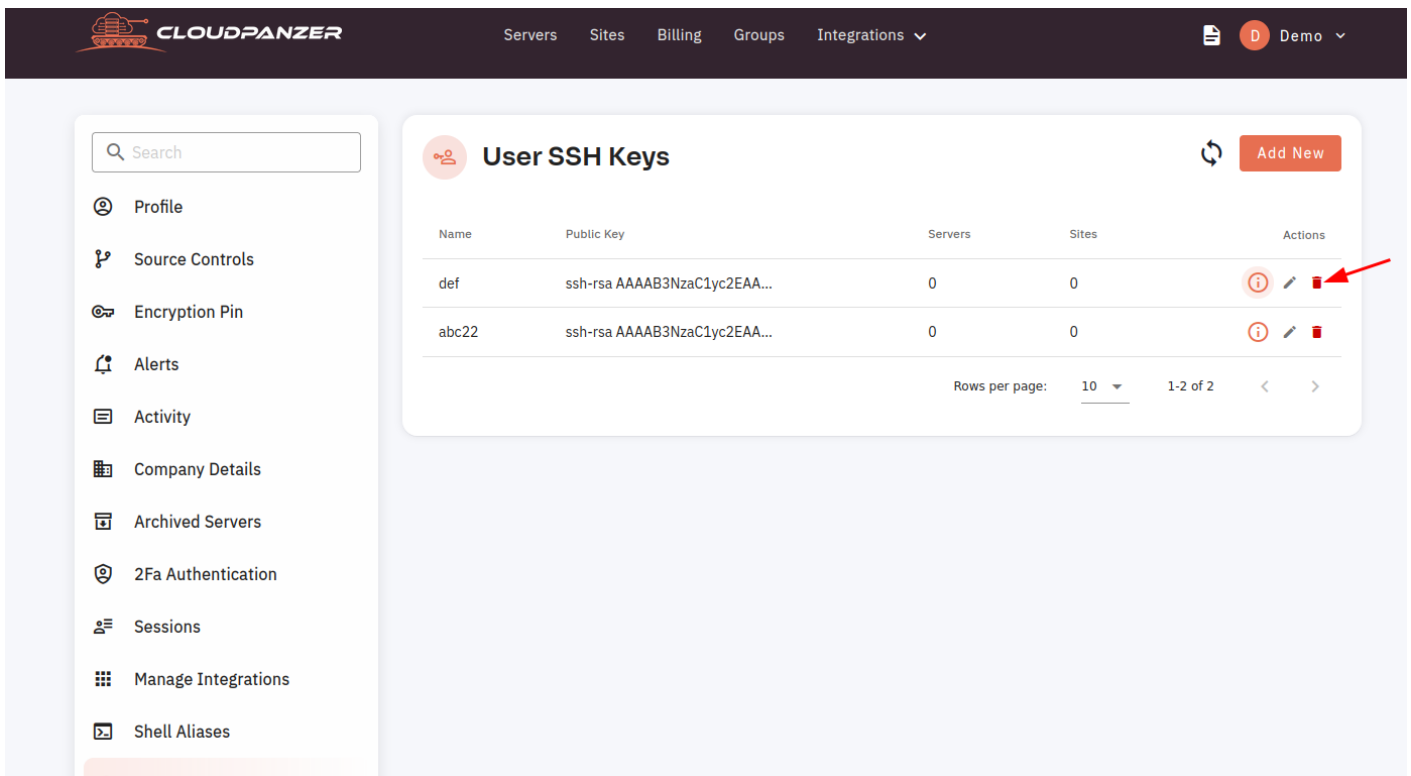

The screenshot shows the CloudPanzer dashboard. At the top, there is a dark navigation bar with the CloudPanzer logo and several menu items: Servers, Sites, Billing, Groups, and Integrations. On the right side of the navigation bar, there is a user profile icon labeled 'D Demo'. A dropdown menu is open from this icon, showing three options: 'Account Settings' (highlighted with a red arrow), 'Support Tickets', and 'Logout'. Below the navigation bar, there is a yellow banner with a warning message: 'Your Account is on Trial Plan , The trial Expires on Sun , Sep 10, 2023'. The main content area is divided into two sections. The left section is titled 'All Servers' and contains a search bar labeled 'Search by name' and a '+ Create New' button. Below this, there is a server card for 'Microsoft Azure' with the name 'cpTest102' and a status of 'Active'. The right section is titled 'Server Events' and contains a 'See All' button. At the bottom of the dashboard, there is a CloudPanzer logo and a description: 'Monitor and manage your servers performance and uptime from anywhere and at any time.'

3. Click on the SSH Keys option.

The screenshot shows the CloudPanzer dashboard with the 'SSH Keys' option highlighted in the left sidebar. The sidebar contains a list of menu items: Alerts, Activity, Company Details, Archived Servers, 2Fa Authentication, Sessions, Manage Integrations, Shell Aliases, SSH Keys (highlighted with a red arrow), Transfer Request Servers, Import Servers, Referrals, and Actions. The main content area is divided into three sections. The top section is a form for adding a new SSH key, with a text input field containing 'demo91@testaccount.boats' and an 'Edit' button. Below this is a 'Save Changes' button. The middle section is titled 'Applied Coupons' and contains a table with columns: Coupon code, trial days, Applied Date, and Trial date. The table is currently empty, with the text 'No data available' displayed. Below the table is a 'Rows per page' dropdown menu set to '10'. The bottom section is titled 'Change Password' and contains a form with two input fields: 'New Password' and 'Confirm Password'. Below the form is a 'Save Changes' button.

4. Click on the Delete icon.

5: Click on the yes button to delete SSH Key.

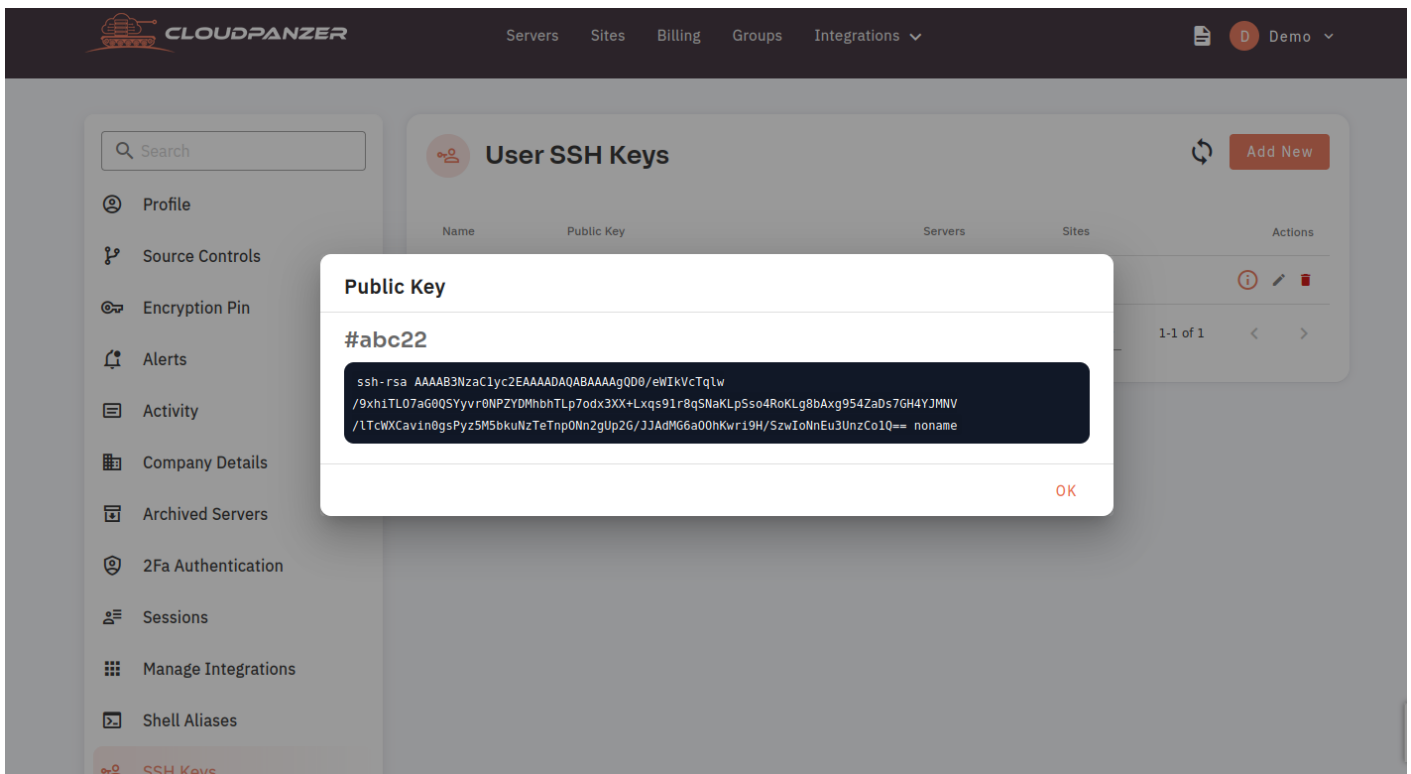

6. Here, you can see the User SSH key was deleted Successfully.

7. You can also check the public key from here.

8. Here, you can see the public key.
