

How to Navigate on Setting in Cloudflare?

Cloudflare is a web performance and security company that offers a range of services for websites and mobile apps. One of the key features of Cloudflare is the ability to customize and configure settings to improve performance and security.

Follow the steps below to Navigate settings.

Navigate to the Home Page of CloudFlare(Use this link to view How to Navigate).

1. Select your account.

The screenshot displays the CloudPanzer dashboard. At the top, a dark navigation bar contains the CloudPanzer logo, menu items (Servers, Sites, Billing, Groups, Integrations), and a user profile icon labeled 'Demo2'. On the left sidebar, a 'CLOUDFLARE' section shows 'Total Account : 1' and 'Account : Jane's Account' with a 'Switch Account' button. The main area, titled 'All Accounts', features a search bar and a table with columns for Email, Type, and Date. A single account is listed with Type 'standard' and Date '16-01-2023 - 1:12 pm'. A red arrow points to the account name in the Email column. The footer includes the CloudPanzer logo, a tagline, and a list of links: Servers, Billing, Knowledgebase, Walkthrough, Terms of Service, and Privacy Policy. A 'Pro' plan upgrade card is also visible on the right.

Email	Type	Date
[REDACTED]	standard	16-01-2023 - 1:12 pm

2. Click on the Domain.

The screenshot shows the CloudPanzer dashboard. At the top, there's a navigation bar with 'Servers', 'Sites', 'Billing', 'Groups', and 'Integrations'. The user is logged in as 'Jane's Account'. On the left, there's a sidebar with 'Account: Jane's Account', 'Email: cf@testaccount.live', 'Pending Zones: 1', 'Active Zones: 1', 'Total Zones: 2', and 'Created At: 16-01-2023 - 1:12 pm'. The main section is titled 'All Domains' and contains a table with the following data:

Domain	Date	Owner Email	Status	Action
demoaccount.live	17-01-2023 - 12:25 pm	cf@testaccount.live	pending	
testaccount.boats	16-01-2023 - 1:17 pm	cf@testaccount.live	active	

A red arrow points to the 'testaccount.boats' domain. Below the table, there's a 'Rows per page: 50' and '1-2 of 2'.

3. Click on "Setting".

The screenshot shows the CloudPanzer dashboard. At the top, there's a navigation bar with 'Servers', 'Sites', 'Billing', 'Groups', and 'Integrations'. The user is logged in as 'Jane's Account'. On the left, there's a sidebar with 'Account: Jane's Account', 'Email: cf@testaccount.live', 'Register:', 'Dns', and 'Setting'. The main section is titled 'Manage DNS' and contains a table with the following data:

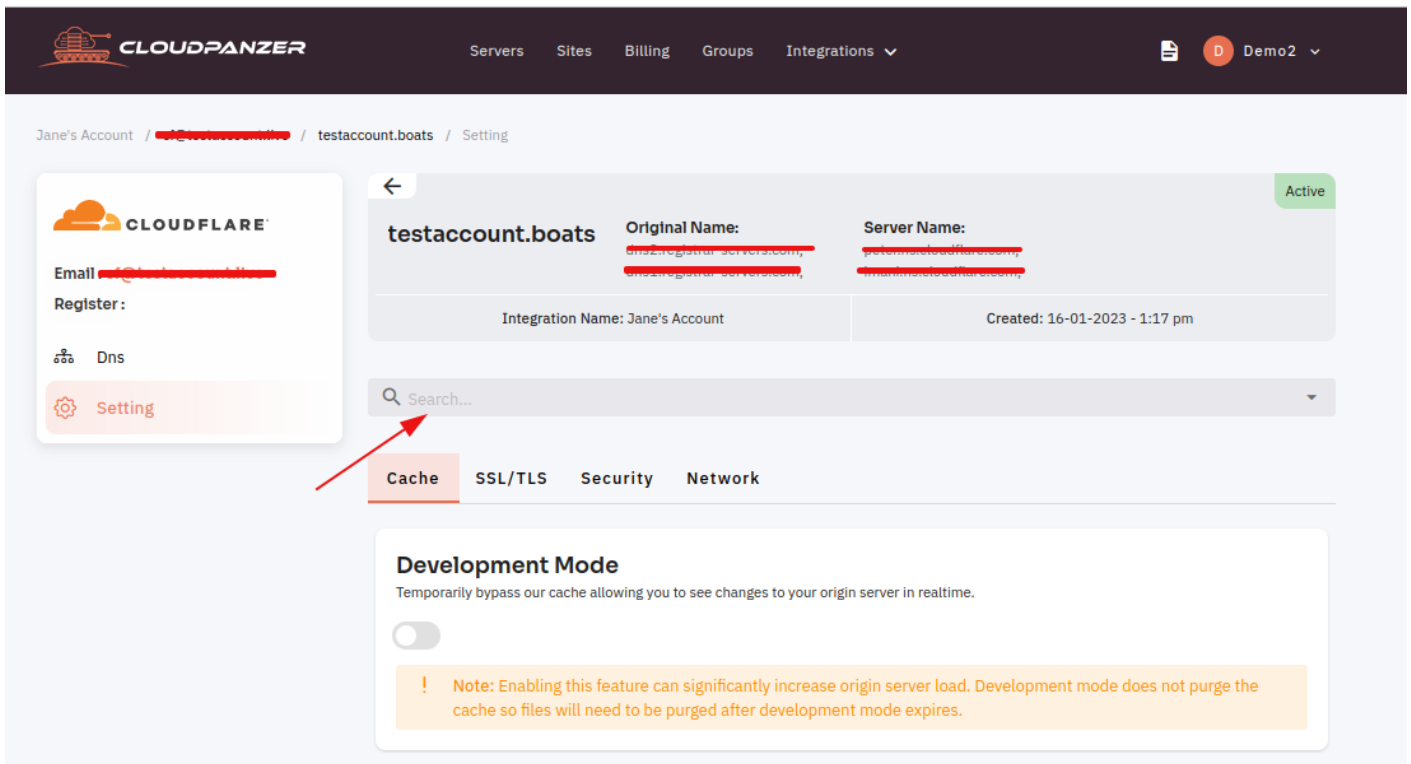

Type	Name	Content	Proxy Status	TTL	Actions
A	testaccount.boats		Proxied	Auto	
A	testaccount.boats			Auto	
A	testaccount.boats		Proxied	Auto	
CNAME	testaccount.boats		Proxied	Auto	

A red arrow points to the 'Setting' option in the sidebar. The 'Manage DNS' section also includes a 'Create New' button and a 'Search by Dns' input field.

Here, you can see the setting page.

The screenshot shows the CloudPanzer web interface. The top navigation bar includes links for Servers, Sites, Billing, Groups, and Integrations, along with a user profile icon labeled 'Demo2'. The breadcrumb trail indicates the current location: Jane's Account / testaccount.boats / Setting. On the left, a sidebar menu for 'testaccount.boats' includes options for Email, Register, Dns, and Setting (which is highlighted). The main content area displays the site name 'testaccount.boats' with an 'Active' status. It shows fields for 'Original Name' and 'Server Name', both of which are redacted. Below these, it lists 'Integration Name: Jane's Account' and 'Created: 16-01-2023 - 1:17 pm'. A search bar is present, and a tabbed interface shows 'Cache' as the selected section. Under 'Cache', the 'Development Mode' toggle is currently off. A warning note states: 'Note: Enabling this feature can significantly increase origin server load. Development mode does not purge the cache so files will need to be purged after development mode expires.'

Here you can search Settings.
