

How to Navigate Supervisor ?

Follow the steps below to Navigate Supervisor Service.

1: Once you are logged in, look for a "Server" and click on it.

2. Select the Actions option.

The image shows a server management dashboard. On the left is a sidebar with the following menu items: Events, Backups, Nginx Configuration, Node.js Configuration, Password Management, Server Info, Notes, Actions (highlighted with a red box and a red arrow), and Panel Updates. The main content area contains several service management cards: MariaDB, Redis, Supervisor, Manage PHP (with sub-cards for PHP 8.2 and PHP 8.1, both marked 'Installed'), and Delete Protection (with a note that it is currently disabled and an 'Enable' button).
