

How to Navigate to the Site Environment From Dashboard ?

In the context of a domain, "site environment" refers to the digital or online aspects of a website or web application, including hosting, design, content, security, performance, and user experience. It encompasses everything related to the domain's online presence and functionality.

Follow the steps below Navigate to the Site Environment.

1: Click on the Server.

2. Select the site whose environments you want to check.

Cloudpanzer interface showing the 'Active Sites' section. The left sidebar lists various tools and services. The main content area displays a table of active sites, with a red arrow pointing to the 'demo.testaccount.boats' entry.
