

How to restore an Archived Server on CloudPanzer?

Follow the steps below to restore an archived server:-

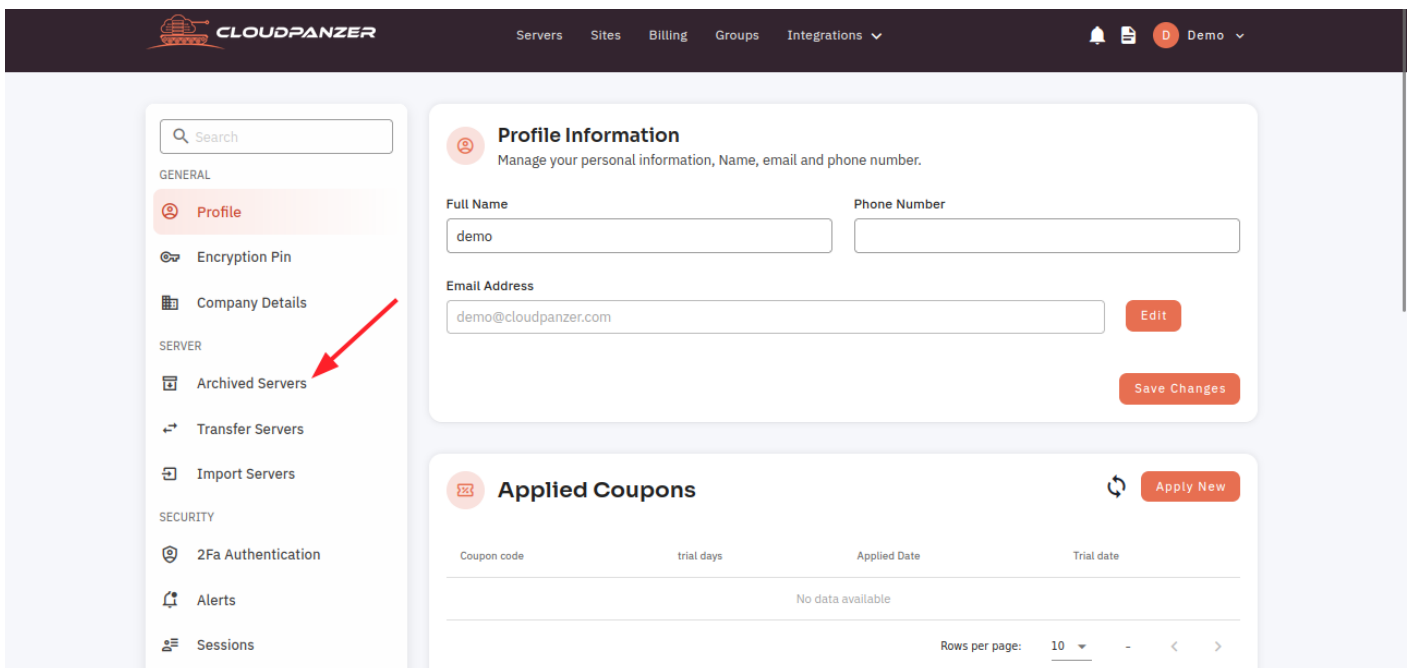

1: Once you are logged in, search for the "Account Settings" option in the menu. This is located in a drop-down menu under your username or it may be a separate tab in the main menu.

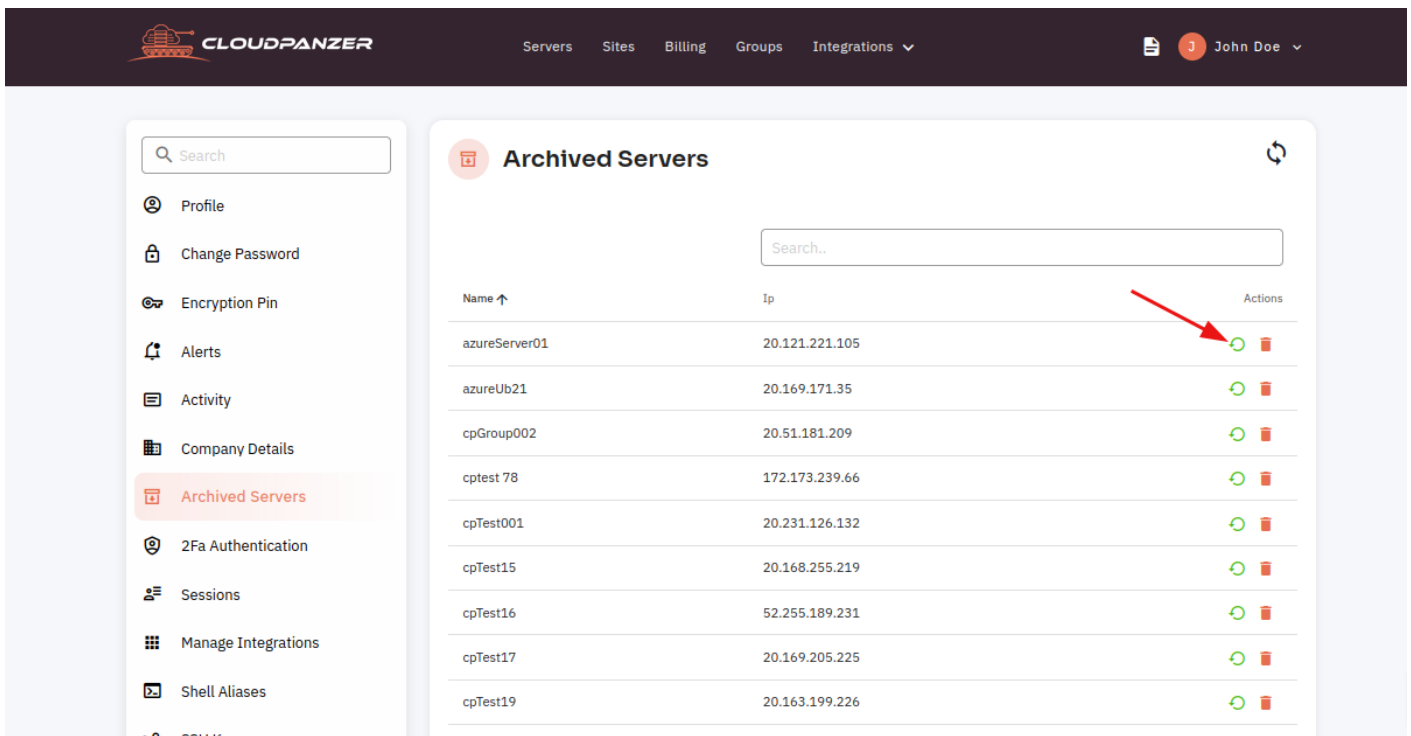

2 Click on Account Settings.

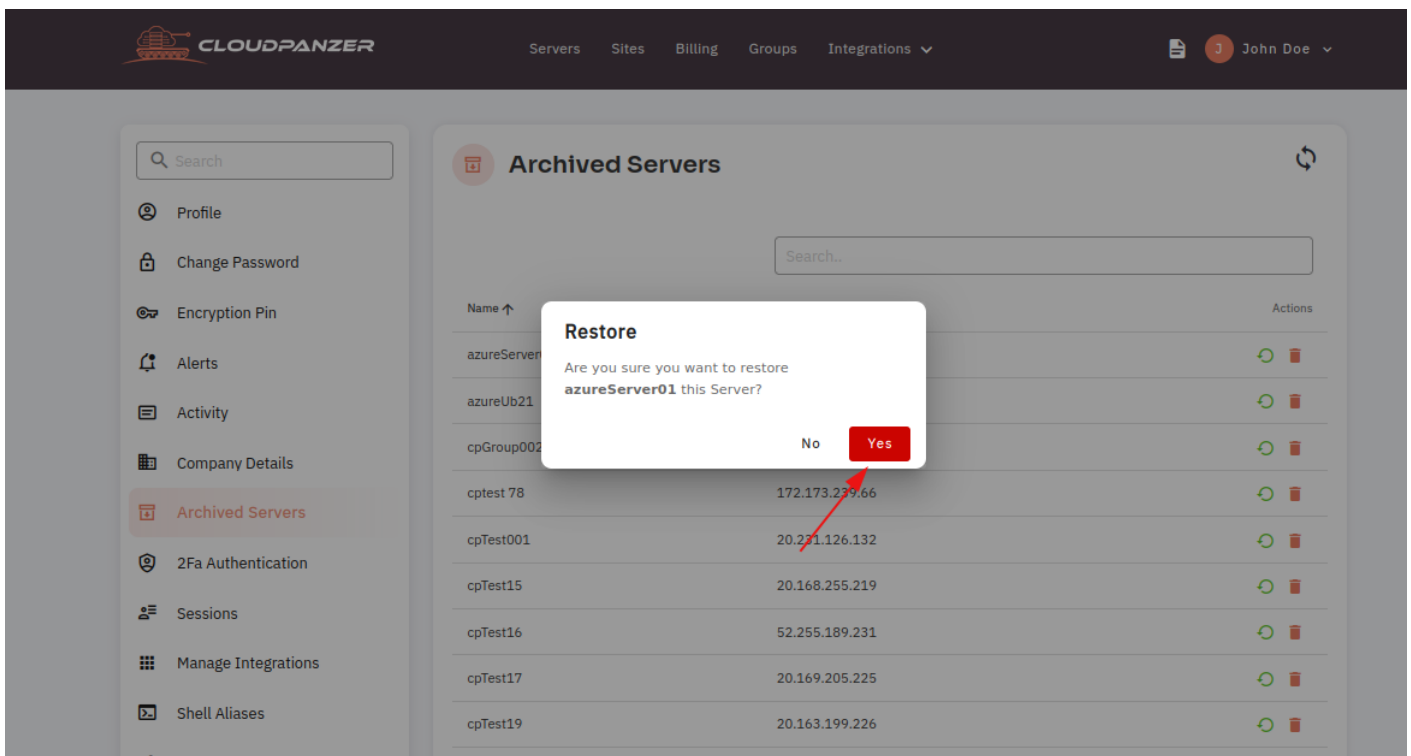

3. Select the Archived Servers Option.

4. Click on the restore button.

5. A dialog box will appear, then click on the Yes button to restore a server.

Here, you can see the server has been restored successfully.
