

# How to view Aliases Events through the cloudpanzer webiste?

**Tutorial :**

**You can watch the Video or Continue reading the post.**

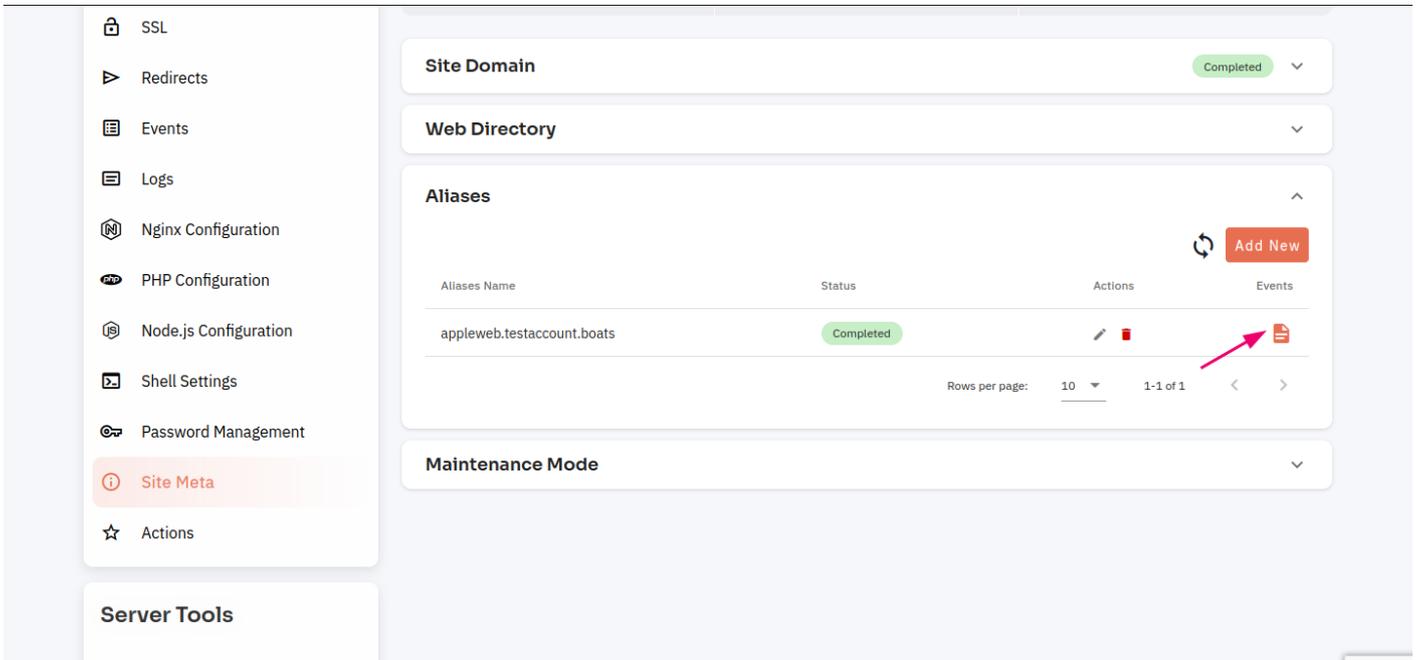

<https://www.youtube.com/embed/ebulvKgruV4>

Follow the steps below to view aliases events on Site

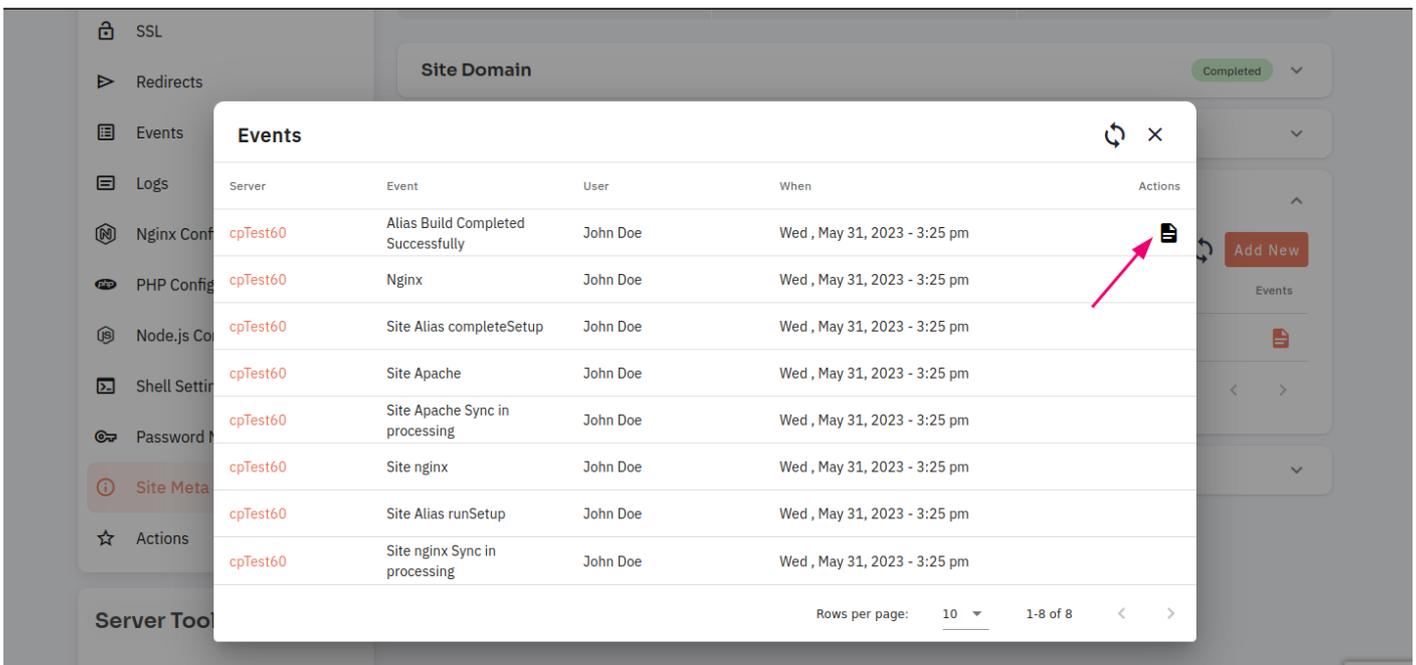

**Navigate to the Site Meta**

**(Use this link to view How to Navigate**

5. Click on the Aliases Event File Icon.

6. Show Aliases Event Dialog and click on the event file icon.

7. Here you can see show Aliases Events are successful.

The screenshot shows a web application interface with a sidebar on the left containing navigation items: SSL, Redirects, Events, Logs, Nginx Conf, PHP Config, Node.js Co, Shell Sett, Password, Site Meta, and Actions. The main content area is titled "Site Domain" and shows a "Completed" status. An "Events" modal window is open in the center, displaying a list of events with their status, message, and code snippets. The modal has a "Close" button at the bottom right.

Line	Event Details
1	{ "status":200,"response":200,"message":"Event log result " }Title : Site
2	Alias runSetup
3	Message : Execution in processing state.....
4	Event status : success
5	{ "status":200,"response":200,"message":"Event log result " ,"data":47943}
6	Title : Site nginx Sync in processing
7	Message : Site nginx sync in processing.....
8	Event status : success
9	{ "status":200,"response":200,"message":"Event log result " ,"data":47944}
10	<!doctype html>
