

How to View Archived Backups Files ?

Follow the steps below to Create Manage Backups.

Navigate to the Create Manage Backups.

(Use this link to view How to Navigate).

3. Select Tab Archived Backups Files and view the file.

The screenshot displays a server management interface. On the left is a sidebar with navigation items: SSH Keys, Software, PHP, Scheduler, Daemons, Logs, Events, Backups (highlighted), Nginx Configuration, Apache Configuration, Password Management, Server Info, Notes, and Actions. The main panel shows server information for "Ubuntu 20.04.6 LTS" in India, with 5/29GB disk usage (20%), 262/906MB RAM usage (28.92%), 1 CPU Core, and Microsoft Azure provider. Below this is the "Manage Backups" section with three tabs: Backups, Destinations, and Archived Backup Files (selected). The "Archived Files" section contains a table with columns for File, Type, Size, and Action.

File	Type	Size	Action
s3://bucket0261/13022023/13022023074156_azure.testaccount.live.zip	website	23.42 MB	🗑️
